

● **Capability Overview**

Rural Health Transformation requires more than funding. It requires implementation.

Cardea helps states, Tribal organizations, health systems, rural hospitals, FQHCs, and community partners turn Rural Health Transformation investments into sustainable systems of care.

We support implementation, workforce readiness and continuing education, CHW integration, maternal health systems, evaluation, and community engagement to help organizations move from planning to operational reality.

Why Cardea

Implementation expertise built for systems-level change.

Cardea partners with organizations navigating complex Rural Health Transformation initiatives, helping align operational strategy, workforce development, evaluation, and community-centered implementation to support sustainable systems change across rural, frontier, Tribal, and under-resourced communities.

Medicaid-Aligned

Implementation expertise built around payment and policy reality.

Rural & Tribal

Health systems experience across rural, frontier, Tribal, and under-resourced communities.

Workforce Readiness & Continuing Education

Supporting workforce readiness through continuing education, implementation support, and multidisciplinary learning strategies.

Multi-Sector Alignment

Facilitation across agencies, providers, and community partners.

Partner With Cardea

Designed for state agencies, rural hospitals, safety-net systems, and partners leading complex rural transformation initiatives.
